If you go Lydenburg-Sabie-Graskop-Hoedspruit you can stop over at the Long Tom Pass. It is a bit of a detour compared to the usual route from of Lydenburg-Ohrigstad-Hoedspruit but the scenery makes up for it. There is a parking area just off the road where you look out over the Sabie valley. Apparently there is another spot further close to where the Longtom cannon is on but I have not found it yet.

You could also toss it off the cliffs at God's Window but retrieval may be a problem should the wind stop blowing.....!!!!

Cheers,
