

## MAASA 2004/ 2005 OVERVIEW

The 2004 – 2005 aerobatics season came to an end at the 2005 Master Championships held at RMAC in June. This was an interesting year, where we saw many new competitors and growth in some of the provinces.

We would like to congratulate the podium finishers, in all classes, on their achievements and trust that they realized their goals. We would also like to thank all competitors for participating in the contests.

A total of 50 competitors participated in Provincial and National contests over the past year, with the majority from the Western Province ( 26%) followed by Gauteng with 24%, Freestate Province with 22%, Eastern Province with 10%, North West Province 8%, Limpopo Province with 6% and Mpumalanga with 2%.

What is very promising is the growth in the Sportsman class with 17 competitors and the majority from the Western Province. After seeing the standard of flying at the Nationals, one recognises that there is a lot of talent out there and a passion to participate in this great sport of Aerobatics.

Shown below is the summary of all the contests flown since the 2004 Masters Championships. The “Total Average” column shows the score average of all the contests that the pilot flew in, as well as the normalized average scores. The next two columns show the average of the best 3 scores as well as the total of the best 3 normalized scores. These were used to determine the rankings in each class. The raw data is available on the SAMAA / MAASA webpage for those who are interested to see how they progressed throughout the year, and who their main rivals were.

The 2005/2006 Raw scores will also be available on the website and will be updated as we get the scores from the various provinces as the year progresses. This will also show who will qualify to be invited to the 2006 Masters Championships.

The Model Aerobatic Association  
of South Africa

## MODEL AEROBATICS ASSOCIATION OF SOUTH AFRICA CONTEST SUMMARY 2004 - 05

### CLASS: Sportsman

NAME	PROVINCE	TOTAL AVERAGES (ALL SCORES)		AVERAGE BEST 3 SCORES		RANKING Norm Scores

Cyrus Richie	GP	59.08	752	19.69	758	10

We would like to thank Nick Dreyer for tabulating all the scores and for designing a spreadsheet that calculates all the totals, rankings etc. automatically.

In closing, on behalf of all the pilots, we would especially like to thank the Judges for the many hours of judging and their valuable input. We really appreciate it.
