

Northern Circle Burners field is between the N21 Freeway and the M57, on the northern side of Clayville. It is difficult to see coming from Clayville as it is hidden amongst the trees but if you come South on the M57 from Pretoria, it is easy to see the circles as the trees are behind them. Take the Oliefontein Road R563 to Clayville. Take the M57 turn off to Elardus - follow the road until you go under a set of power lines. About 100 meters after that there is a signboard on the west side of the road "Execucrete/Readymix" and immediately opposite is a small tarred road, that becomes dirt that goes into the Northern Circle Burners Field.
