

Hangar of Hope – Give Wings to a Dream, One Trainer at a Time ✨

Dear SAMAA Member,

Sometimes, all it takes to change a life is a helping hand... or a gently used trainer aircraft. We're proud to introduce the **SAMAA Hangar of Hope** — an initiative built on the very spirit of this community: giving others the chance to fly. Among us are aspiring pilots — young and old — who carry a dream in their hearts but lack the means to lift off.

You can help make their dreams take flight.

If you have a trainer plane, radio, batteries, charger, or other gear gathering dust, consider donating it to the *Hangar of Hope*. What may seem like an old model to you could become someone else's **first flight, first loop, or first smile in the sky.**

How It Works:

Club Chairpersons can request a *Hangar of Hope Kit* on behalf of a deserving individual who meets the following criteria:

1. Is a **SAMAA member in good standing**
2. Has **regular access** to a club
3. Provides **proof of address**
4. Has achieved **solo proficiency**
5. Signs an agreement confirming:
 - The model will **not be sold or stripped**
 - It will remain under **SAMAA supervision for 12 months**
 - **Permanent ownership** will be transferred once regular flying is confirmed by the committee

This isn't just an initiative — it's a **mission**.
Let's share the **joy of flight** with those who need it most.
